| |) | |

In its order providing constructions for claim terms from United States Patent No. 7,824,612, the court determined that the term “analyte” required construction and invited the parties to provide their positions via joint letter brief. The parties agree that the term should be construed as “substance that is analyzed.” The court concurs and adopts that construction.

IT IS SO ORDERED.

Dated: August 9, 2013

PAUL S. GREWAL
United States Magistrate Judge
